## Work History

---

Web Engineer

October 2013 to Present

*Weather Decision Technologies*

Using microservices and libraries like React and Hapi, I build, organize, and direct my team to build some of the highest value services for the company using some of the largest data sets in the world - weather data.

---

Web Developer, Partner

Jan 2012 to October 2013

*OverDid.It*

---

Web Developer, Freelance

Jul 2011 to Jan 2012

*Adcuda*

---

Lead Front-End Web Developer

Nov 2010 to Jun 2011
