Introduction

Seasoned developer with 5+ years of coding experience and an immense knowledge of web development. Offering a unique combination of creativity and analytical skill used to create functional code that is both elegant and efficient.

Education

Oklahoma City Community College

August 2010 to May 2013

Computer Science: Web Design and Development

I graduated in May of 2013 with an Associate in Applied Science: Computer Science, with an Emphasis in Web Design and Development.

- Certificate of Mastery: Web Design
- Certificate of Mastery: Web Development
- Recipient of the President's Award for Excellence

Tuttle High School

Aug 2006 to May 2010

- National Honor Society Member
- Lead Editor, Yearbook Staff
- Graduated in the top 15% of my class

Skills

Being a Computer Science student and a naturally curious person, I have been exposed to a

variety of programming languages and environments. That being said, my skill levels in each of them are best expressed as a bar chart.

Software I Use

I had a professor in college who would say "I don't care what operating system or software you use for my class, but I encourage you to try them all to find what works for you." This is something I strive to do.

Operating Systems

Mac OS X, Linux (Debian, Ubuntu, and Fedora), and Windows. I prefer to work on a Mac.

Applications

Git, Compass/Sass, Sublime Text 2, Coda 2, XCode, MAMP Pro, Photoshop CS6, Illustrator CS6, Flash CS6, and Sketch 2.

Work History

Web Developer, Partner
OverDid.It

Jan 2012 to Present

I provided development for WordPress, Drupal, and static HTML/CSS web sites for a range of clients. I also did a lot of work with AJAX and JavaScript, including jQuery. My responsibilities as VP of Development included:

- Project Management
- Meeting with Designers and Clients

- Code Review to ensure everything is up to our high standards

Web Developer, Freelance
Adcuda

Jul 2011 to Jan 2012

I developed 14 WordPress web sites, while coordinating with their development team and following designs by their design team, for a variety of clients.

Lead Front-End Web Developer
Design By Caffeine

Nov 2010 to Jun 2011

Design by Caffeine was a web startup of which I was a founding member. My responsibilities included:

- Developing WordPress-powered websites
- Managing the other developers and freelancers
- Interfacing with designers and sales people

Conferences Attended

Conferences are important for someone in my line of work. I enjoy attending them to learn new things and meet people.

2012 WordCamp Kansas City

2011 Red Dirt JavaScript

2011 WordCamp Kansas City
