Work History

Web Engineer
Weather Decision Technologies

October 2013 to Present

I build, organize, and direct my team to create some of the highest value services for the company. Using microservices and libraries like React and Hapi, we use weather data to build complex applications. In addition, I lead my team in exploring new technologies to improve our products.

Web Developer, Partner
OverDid.It

Jan 2012 to October 2013

Web Developer, Freelance
Adcuda

Jul 2011 to Jan 2012

Lead Front-End Web Developer
Design By Caffeine

Nov 2010 to Jun 2011

Skills

- JavaScript
- Node
- CSS
- Go
- Docker

Volunteer Work

Techlahoma
Board Member

December 2015 to Present

Techlahoma is a 501(c)(3) with the mission to advance Oklahoma's grassroots technology community. We do this by supporting user groups, running conferences and workshops, and mentoring.

OKC.js
Volunteer

September 2014 to Present

I help organize the Oklahoma City JavaScript User Group.

Education

Oklahoma City Community College
Computer Science: Web Design and Development

August 2010 to May 2013

- Recipient of the President's Award for Excellence: Computer Science
